Getting started...

A movie club gives its members a chance to meet for lively discussions, entertainment, and refreshments. Here are some things to consider when you set up your club.

- ☆ **How often will you meet?**
- ☆ **What day, or time, works best for most members?**
- ☆ **How will you choose your films?** Does the choice rotate with members, or do you plan as a team? See some of our suggestions.
- ☆ **How much time do you need for discussion, and what will you discuss?** The theme, acting, script, characters, music, directing, location and relation to other films or books are all topics to consider.
- ☆ **Are refreshments on the agenda?** Popcorn is the classic choice, but consider food to match the theme.
